ABOUT US

QuantEdge Consultancy Services is a founder-led training and consulting organization focused on campus placement, employability and career-readiness solutions for educational institutions.

Founded by **Raman Tiwari**, an aptitude and campus recruitment trainer with **10+ years of hands-on training experience**, QuantEdge brings together practical training expertise and a structured institutional delivery model.

The company's programs are designed to bridge the gap between academic learning and industry expectations through **Aptitude, Technical Skills, Communication, Interview Preparation, AI & Data Skills, and Company-Specific Placement Preparation**.

QuantEdge works with institutions through **on-campus, online and hybrid training models**, with customized programs based on student profiles, academic calendars and placement objectives.

MEET THE FOUNDER

Raman Tiwari

Founder & Director | Aptitude & Campus Placement Trainer

10+ Years of Training Experience

With over a decade of hands-on experience in aptitude and campus placement training, **Raman Tiwari** has worked extensively with engineering and management students, helping them strengthen their aptitude skills and prepare effectively for competitive recruitment processes.

Over the course of his training journey, he has **trained 1,25,000+ students across 35+ colleges**, delivering placement-focused training in Quantitative Aptitude, Logical Reasoning, Verbal Ability and recruitment-oriented assessments.

His approach combines **concept clarity, practical problem-solving, time-management techniques, regular assessment and company-oriented preparation** to help students perform with greater confidence during campus recruitment.

With this extensive training experience as its foundation, **QuantEdge Consultancy Services** was established to provide structured, customized and outcome-focused placement and employability solutions to educational institutions.

1,25,000+ Students Trained | 35+ Colleges | 10+ Years of Experience

OUR PURPOSE

At **QuantEdge**, our purpose is to bridge the gap between **academic potential and professional performance**.

We empower students with the skills, confidence, practical knowledge, and career readiness they need to navigate recruitment processes and succeed in the workplace.

From aptitude and technical skills to communication, interviews, and emerging technologies, we focus on developing **capable, confident, and industry-ready professionals not just placement candidates**.

We don't just prepare students for placements. We prepare them for what comes after.

OUR VISION

To become one of India's most trusted and impactful employability partners for educational institutions – empowering students with the skills, confidence, and industry readiness to succeed in recruitment and thrive in their professional careers.

We envision a future where **every student is equipped to convert academic potential into professional performance**, and every institution has a reliable partner committed to strengthening its placement ecosystem and graduate employability.

OUR MISSION

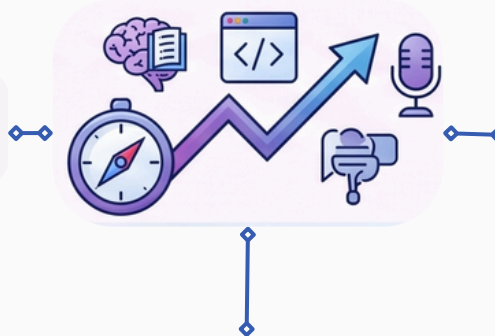

At **QuantEdge Consultancy Services**, our mission is to **bridge the gap between academic learning and industry expectations** by providing structured, practical, and outcome-focused **placement and employability solutions** for educational institutions.

Our mission is to go beyond conventional classroom training by creating structured learning pathways, continuous practice, realistic assessments, and performance-focused preparation that help students become confident, capable, industry-ready professionals and enable institutions to strengthen their overall placement ecosystem.

WHY CHOOSE QUANTEDGE?

End-to-End Placement Preparation

From Aptitude & Reasoning to Technical Skills, Communication, Interviews, AI, Data Tools, and Company-Specific Preparation, our programs address the key stages of the campus recruitment journey.

Customized Institutional Training

Training programs are tailored to the student profile, academic requirements, placement goals, batch level, duration, and institutional schedule—ensuring relevant and effective learning.

Assessment-Driven & Outcome-Focused

We combine concept learning, practice, mock assessments, recruitment simulations, and performance analysis to identify skill gaps and drive continuous improvement in placement readiness.

In a market flooded with generic training providers, we stand apart by offering a complete, custom-designed placement training ecosystem that guarantees transformation, not just preparation.

OUR KEY DIFFERENTIATOR

Generic training prepares students for placements. Our ecosystem prepares students for careers.

Personalized Skill Gap Analysis

Students are evaluated to identify their individual strengths, weaknesses, communication gaps, technical limitations, and areas requiring improvement.

Continuous Assessment & Feedback

Progress is measured throughout the program through regular assessments, performance reviews, mock interviews, and structured feedback.

Corporate-Ready Communication

Special emphasis is placed on helping students communicate ideas clearly, professionally, and confidently in corporate environments.

Aptitude Training

Aptitude training focuses on strengthening analytical ability, numerical understanding, logical thinking, and time management

- Quantitative Aptitude
- Logical Reasoning & Data Interpretation
- Verbal Ability
- Mock Assessments

Technical Training

Technical training programs are designed to equip students with practical, workplace-relevant digital and analytical skills.

- **Programming:** C | C++ | Java | Python
- **Core CS:** DSA | OOP | DBMS | SQL | OS | Computer Networks
- **Placement:** Coding Assessment | Technical MCQs | Technical Interview

AI-Enabled Employability & Emerging Technologies

AI & Emerging Technologies programs equip students with practical knowledge of modern AI tools and technologies used across today's workplace. The curriculum combines foundational concepts with hands-on applications to improve productivity and employability.

- Generative AI
- AI Tools
- Prompt Engineering
- Machine Learning Fundamentals
- AI for Productivity
- Industry Applications

Data Tools & Business Analytics

Data Tools & Business Analytics programs enable students to transform raw data into meaningful insights for business decision-making. The curriculum focuses on Excel, dashboards, data visualization and business intelligence.

- **Foundation**
MS Office / Excel
- **Professional**
Advanced Excel / Dashboards
- **Analytics**
Power BI / Data Visualization / BI

Softskill & Communication

Communication & Soft Skills programs develop students' professional communication, confidence, collaboration and workplace interaction skills required for successful campus recruitment.

- Professional Speaking
- Listening Skills
- Teamwork & Collaboration
- Content Structuring
- Opening & Closing Statements
- Logical Argument Development
- Group Discussion Practice

Interview & Selection Readiness

Interview preparation programs simulate real hiring environments and equip students with the confidence, communication skills and strategies required to perform effectively across different selection rounds.

- Resume Building
- HR Interview
- Technical Interview
- Mock Interviews
- Presentation/JAM
- Interview Strategy

Company-Specific Placement Training

Company-Specific Placement Training programs are designed to prepare students for the precise hiring assessments and interview formats of top multinational corporations. The curriculum is customized to align with the unique recruitment patterns, testing platforms, and expectations of each target employer.

- TCS
- Infosys
- Wipro
- Accenture
- Cognizant
- Capgemini
- Deloitte
- HCLTech
- Tech Mahindra & similar IT recruiters

Dual-Focus Curriculum : Aptitude and Tech

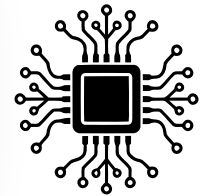

- **Aptitude Training:** Quantitative Ability, Logical Reasoning, and Verbal Ability – all tailored to top MNC, PSU, and MBA entrance patterns.
- **Technical Training:** C++, Java, Python, DSA, and hands-on Real-World Projects all aligned with product and service company expectations. Students graduate from our program with the confidence to code and the clarity to calculate.

Tech-Enabled Learning Platform

The students get access to our web portal, with:

- Daily practice quizzes & assignments
- Full-length mock tests with performance analytics
- Interview simulation & feedback modules
- Resource library

Company-Specific Mock Tests and Practice Material

Our placement prep isn't one-size-fits-all – it's tailored to real-world hiring processes. We provide company-oriented mock tests & practice material that reflect relevant recruitment patterns, difficulty level and question types used by top recruiters such as: TCS, Infosys, Accenture, Cognizant and similar IT recruiters.

EACH TEST INCLUDES

- Company-wise test format simulation

- Solution walkthroughs and strategy tips

- Sectional time limits and difficulty mapping

- Detailed performance analytics with benchmarking

These mock tests are not just practice they are predictive rehearsals for the real thing, helping students walk into campus placements with targeted preparation and confidence

HYBRID MODEL OF TRAINING

We understand the dynamic schedules of colleges and students, which is why we follow a Hybrid Training Model that offers the best of both worlds — on-campus presence + digital flexibility. Our Hybrid Model includes:

- **Offline Classroom Sessions:** Expert-led training sessions for core aptitude and technical topics delivered on campus.
- **Online Learning Support:** Web-based access to lectures, assignments, practice tests, and interview prep.
- **Doubt Resolution & Mentorship:** Available both in-person and via live chat/video.

RESUME BUILDING

Your resume, your story

- One-on-one sessions to refine and optimise resumes for ATS and recruiter screening
- Role-specific templates and keyword integration for maximum impact
- Focus on quantifiable achievements, clean formatting, and storytelling
- LinkedIn alignment for a consistent digital profile
- Before-after benchmarking to track real improvement

Outcome: Students leave with a job-ready, recruiter-aligned resume that reflects their unique strengths.

INTERVIEW PREPARATION

Mock today, perform tomorrow

- Industry-specific mock interviews (Tech, Consulting, Core, Analytics)
- Real-time adaptive Q&A with personalised feedback
- Focused improvement on confidence, delivery, and content
- Behavioural coaching, video playback, and pre-interview strategy sessions
- Story bank creation to answer HR questions with clarity and impact

Outcome: Students enter interviews with clarity, confidence, and customised preparation that aligns with their dream role.

OUR PROGRAM STRUCTURE

We offer three flexible yet outcome-driven formats to suit the academic calendar and training goals of partner institutions. Each is designed to seamlessly blend with the curriculum while ensuring maximum student employability.

PLACEMENT : BOOSTER BOOTCAMP

Placement : Booster Bootcamp

Placement Bootcamp is an intensive, placement-focused training program designed to equip students with the skills and confidence needed to succeed in campus recruitment.

- **Expected Outcomes:**
 - Immediate boost in placement readiness
 - Last-mile polishing before interviews begin
 - Ideal for final-year students approaching campus drives

Recommended For : Final-year students

TPO-led placement season kickoffs, lastminute prep sessions.

Key Features

These are short-term, intensive bootcamps conducted just before the placement season, typically scheduled during the pre-final or final semester.

- **Duration:** 40 to 60 Hours
- **Format:** On campus / Online / Hybrid
- **Bootcamp for:**
 - Quantitative Aptitude
 - Logical Reasoning
 - Verbal Ability
 - Soft Skills
- Frequency of the Classes: To be mutually decided
- Resume Building workshop
- Interview Preparation Class (GD-PI)
- Mock Tests- A total of 5 Mock Tests would be provided
- Class assignments
- Practice material

PLACEMENT : ESSENTIALS

Placement: Essentials

A semester-long, integrated training track that runs alongside the academic calendar, building skills gradually rather than in a short burst.

- **Expected Outcomes:**
 - Conceptual clarity and gradual skill development
 - Strong foundation for internships and campus placements
 - Student transformation over time, not just training before exams

Recommended For : Pre-final year students

Skill-based credit programs, Holistic placement pipelines.

Key Features

An intensive career-readiness journey for pre-final year students, building skills, confidence, and competitive edge.

- **Duration:** 120 to 150 Hours
- **Format:** On campus / Online / Hybrid
- **Concept building classes:**
 - Quantitative Aptitude
 - Logical Reasoning
 - Verbal Ability
 - Soft Skills
- **One-on-One sessions for:**
 - Resume Building
 - Mock interviews
 - Mentorship
- A dedicated session for LinkedIn profile building
- Interview Preparation Class (GD-PI)
- Frequency of the Classes: To be mutually decided
- Interview preparation for the Technical Round
- Bootcamp for **C, C++, Java, Python**
- Mock Tests- A total of 10 Mock Tests will be provided
- Class assignments
- Practice material

PLACEMENT COMPREHENSIVE

Our most extensive and structured offering, designed to provide end-to-end placement preparation. It's ideal for institutions aiming to create highly placement-ready batches through gradual in-depth training.

Delivery Format

- Online / Offline / Hybrid
- Weekly Sessions – Frequency to be decided mutually
- Continuous Evaluation – Assignments, assessments, and feedback reports
- Dedicated Mentorship – Faculty-led checkpoints and mentor mapping

Expected Outcomes

- Fully placement-ready candidates by the end of the academic year
- Increased confidence, clarity, and competitiveness
- Better placement statistics and recruiter satisfaction for the institution
- Students equipped with industry-aligned skills, not just academic knowledge

Key Features

- **Duration:** 180 to 210 Hours
- **Format:** On campus / Online / Hybrid
- **Concept building classes:**
 - Quantitative Aptitude
 - Logical Reasoning
 - Verbal Ability
 - Soft Skills
- **One-on-One sessions for:**
 - Resume Building
 - Mock interviews
 - Mentorship
- A dedicated session for LinkedIn profile building
- Interview Preparation Class (GD-PI)
- Frequency of the Classes: To be mutually decided
- Interview preparation for the Technical Round
- Bootcamp for **C, C++, Java, Python**
- Mock Tests- A total of 10 Mock Tests will be provided
- Class assignments
- Practice material

Recommended for: This program is ideal for institutions looking to create careerready graduates, not just degree holders. A complete ecosystem for students who want structured growth over time.

OUR PROMISE

Training is the activity. Transformation is the outcome.

LEARN

PRACTICE

ASSESS

IMPROVE

QuantEdge is built around a simple principle: training should translate into measurable capability. Our programs combine structured learning with practice, assessment, feedback and continuous improvement.
